BEYOND WIRELESS - FIRST CLOUD BASED INTRA ORAL SCANNER

Powered by DS Core1, the scan data is captured directly on the cloud platform, allowing you to use your scanner anywhere, anytime.

TRANSFORM ANY ROOM INTO A SCANNING ROOM

Primescan 2 doesn't require any dedicated hardware – use it with any computer, laptop, tablet or other mobile device with an internet connection.

INSTANTLY READY TO SCAN AGAIN

Once the scan is complete, Primescan 2 can be moved to the next patient, allowing for a fast hand-over of the scanner within the practice and increasing your device's availability.

ONE SCANNER FOR NUMEROUS TREATMENTS

Primescan 2 delivers accuracy and high-quality scans many indications and materials. Thanks to its broad range of applications, it can open up a world of possibilities for your practice offering.

CS 8200 3D Access

CBCT

Enter a world of crystal-clear 3D images with the CS 8200 3D Access - a CBCT system that's state-of-the-art, but intuitive and easy to use, taking your dental practice to the next level.

Benefits

- Versatile 4-in-1 solution - panoramic technology, CBCT imaging, 3D model scanning and optional cephalometric imaging
- Easy to use with a modern, user-friendly interface
- Exclusive CS UpStream premium support service
- Ultra compact smart design. Can fit into tight spaces
- Selectable field of view - With up to six fields of view, including full arch scanning, the CS 8200 3D Access covers virtually any need. You can obtain the ideal image for each individual exam, at the right dose.

Vacuclave 105 & Vacuclave 305

More power. More flexibility. More wow.
Small autoclaves for big dreams.

Vacuclave 105 (Pro Line)

Our entry-level model: With class B and S programs, the Pro Line compact autoclave offers everything you need for safe, convenient and resource-saving sterilization.

Powerful class B vacuum process

Reliable sterilization of up to 2 kg on 2 trays in just 6.5 to 14 minutes (plus drying) - Made in Germany.

Smart-Touch Display with LED status

Touchscreen with intuitive menu structure for easy operation like your smartphone - even with gloves.

Plug & Play installation concept

Lightning-fast commissioning with the aid of external water tanks.

FlexDRY drying

Freely programmable drying time from 1 to 60 minutes, individually tailored to your workflow and load.

Power Save energy-saving mode

Heating and display standby mode between sterilizations for top energy efficiency.

Connectivity and data logging

Compliance with legal requirements through logging of sterilization parameters via USB and network or log printout via MELAprint 80.

Vacuclave 305 (Prime Line)

Maximum flexibility, efficiency and legal certainty in the smallest space: Vacuclave 305 also impresses with smart functions for perfect drying results and seamless batch traceability.

DRYtelligence drying

Algorithm-controlled drying ensures optimum results while reducing drying times by up to 80 %.

ProControl approval

Say goodbye to paperwork: ProControl enables batch release and user authentication directly on the display without extra software.

Label printing with MELA

The optional barcode label printer enables seamless labeling and traceability of instruments - from treatment to reprocessing.
